

BACK TO SCHOOL Safety & Security

Experienced & Dependable: 30+ years of Overall Experience in Delivering Education Technology Solutions.

Providing a Safe Campus from the time students get on the bus to the time they graduate - that's our priority in providing industry-leading, reliable technology solutions for your entire Safety Team.

For over 30 years, ProLogic has been designing and building solutions based on industry-changing technology platforms and related value-added services.

DIGITAL Protection

- Cyber-Bullying
- Cyber-Security

PHYSICAL Protection

- Metal Detectors
- Radios
- Bodycams
- Armed Protective Gear

ENVIRONMENT Protection

- Teacher Alert-Badges
- Building Access Control
- License Plate Readers
- Video & Audio Surveillance
- CPR Devices
- Lockdown Hardware

ProLogic ITS project management staff has experience creating and executing safety technology deployment plans for many school systems nationwide.

We can work with your Safety Team to integrate solutions into your current technology environment to fill a critical need or stand up new comprehensive solutions when you are ready to upgrade.
