

EQUIPMENT MANAGEMENT MADE EASY

One app to simplify ordering, tracking, and running reports for your equipment plus manage your staff with easy to use tasks, work orders, purchase requests, maintenance, and more.

FEATURES

Desktop and Mobile friendly » use the app to manage your equipment and people.

CREATE & ASSIGN TASKS

Lead your team by creating and assigning Tasks for them. Choose from one of our service templates and checklists or make your own. You can link tasks to any equipment and assign it to any team member.

BUY & TRACK EQUIPMENT

Shop from the app and get equipment shipped directly to your door with updates. Track product SKUs, location, dimensions, equipment health, service history, and more to help you stay on top of everything.

GENERATE WORK ORDERS

Create, assign and complete work orders for any equipment. Take and store pictures, notes, status updates, and more for any piece of equipment. Then make purchase requests to supervisors to approve and procure replacement parts or new equipment.

ANALYZE REPORTS

Run reports on everything about your equipment from quantities and inventory by room to equipment health status and aging to service and financial information.

SCHEDULE SERVICE & NOTIFICATIONS

Receive notifications for any new or updated tasks, work orders, purchase requests, or other activities across your organization. Get reminders for service routines and schedule maintenance with checklists.
